

VROOZI FOR OIL & GAS

Procurement Built for the Field. Powered by Data.

Oil and gas companies face some of the toughest procurement challenges: remote job sites, aging ERP systems, paper-heavy processes, fragmented suppliers, and rising cost pressures. Vroozi brings intelligence, speed, and automation to every step of your procure-to-pay workflow — all while connecting the dots between field ops, procurement, finance, and suppliers.

THE PROBLEM

- ▶ **Manual and Fragmented Processes:** Quote-first workflows, emailed approvals, and spreadsheet-driven inventory create costly delays.
- ▶ **Field Teams Left Behind:** Requisitioning requires workarounds or office support, slowing down productivity.
- ▶ **Lack of Visibility:** No centralized view of spend, supplier activity, or order status across rigs and regions.
- ▶ **Invoice Chaos:** Manual invoice matching and coding creates bottlenecks, late payments, and missed early pay discounts.
- ▶ **Aging Systems:** Older ERP environments (SAP, Oracle, NetSuite) lack intuitive, mobile-first purchasing interfaces.

THE VROOZI ADVANTAGE

Smart Procurement + AP Automation

- AI-powered matching eliminates up to 90% of manual invoice handling.
- Auto-code non-PO invoices based on historical data: no back-and-forth with the field.
- Drag-and-drop PDF quotes, Excel BOMs, or spec sheets. Vroozi builds the requisition.
- Smart approval routing keeps your \$200 gasket order from getting stuck behind a \$200K pump.

Field-Ready Tools

- Mobile-optimized experience for field teams to requisition materials or check status.
- AI Search + Chatbot interface: "Order 4-inch ball valve on contract" — done.
- Bulk upload tools for SOWs, engine overhauls, inventory replenishment.

VROOZI FINANCIAL BENEFITS

Real Vroozi customers results

- 100% spend under management
- 15 – 30% savings on purchasing costs
- 10 – 20% consolidation on tail spend
- Increased financial control and visibility
- Increased remote operational efficiency
- Accelerated procurement cycle times, reducing cost-per-transaction

Rapid Deployment, Real ROI

- Reduce invoice processing time by 90%
- Achieve 10–30% cost savings on critical categories
- Reduce procurement cycle time from months to days
- Boost supplier collaboration with real-time portals and confirmations
- Unlock working capital through early payment and supply chain finance programs

Built for Oil & Gas

Oil and gas operations are complex, with procurement touching everything from offshore rigs to regional service hubs. Vroozii is purpose-built to adapt to this environment, delivering automation, visibility, and control that work effortlessly with the systems and suppliers you already rely on.

- 1 ERP Integration Without Disruption**
Connect seamlessly with SAP, Oracle Cloud, NetSuite, and even legacy systems. Vroozii overlays your existing environment, modernizing workflows without forcing costly system replacements.
- 2 Direct & Indirect Procurement Support**
Manage both indirect goods and direct materials like pipes, valves, fittings, and chemicals. Vroozii supports inventory-driven reordering and marketplace catalogs to cover every category of spend.
- 3 Unified Procurement + Finance**
Break down silos between procurement, operations, and accounts payable. Vroozii links requisitions, purchase orders, invoices, and payments in a single intelligent platform with full visibility.
- 4 Field-Proven Across O&G Segments**
Deployed with upstream producers, midstream operators, offshore facilities, and oilfield service contractors. Wherever procurement touches the operation, Vroozii brings speed, automation, and control.

With Vroozii, we didn't just automate procurement, we transformed it into a strategic function. Now, our inventory reorders itself, our systems speak the same language, and our customers have direct line to the equipment they need. It's not just operational efficiency—it's a competitive edge."

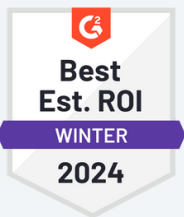

Ed Esqueda, Supply Chain Director
Thomas Oilfield Services

BEST ROI & FASTEST IMPLEMENTATION ACROSS ALL PROCURE-TO-PAY SOLUTION PROVIDERS

Vroozii consistently ranks as having the best ROI among all Procure-to-Pay vendors on G2. Our users report seeing ROI within the first 10 months vs. the competitor average of 19 months.

Vroozii users also report an average time-to-go-live of 3.5 months — that's 15% faster than the average P2P implementation!
