SmartPR CAPABILITIES

AI DOCUMENT INTAKE

Automatically ingest XLSX, CSV, PDF, and supplier quote files without manual prep or formatting.

LINE-ITEM EXTRACTION

AI extracts items, quantities, pricing, supplier details, and descriptions with precision.

INTELLIGENT DATA MAPPING

SmartPR maps extracted data to the correct requisition fields, categories, and coding rules.

POLICY & BUDGET VALIDATION

Catch missing data, pricing issues, and policy violations before submission – not after rejection.

PURCHASE REQUISITION CREATION

Generate clean, complete PRs in minutes – no rekeying, copy/paste, or spreadsheet gymnastics.

FASTER APPROVALS

Higher-quality PRs move through approval workflows with fewer exceptions and delays.

BUYER TIME SAVINGS

Eliminate repetitive admin work so buyers focus on sourcing, negotiation, and supplier strategy.

SUPPLIER & PRICE NORMALIZATION

Standardize supplier names, pricing formats, and units of measure for clean, consistent PRs.

SmartPR BENEFITS

- Dramatically reduces manual PR creation time
- Improves PR accuracy and compliance
- Shortens requisition-to-approval cycle times
- Scales purchasing volume without adding headcount
- Delivers real-time visibility into PR data and purchasing activity
